

Heterosexual Questionnaire

One would seldom consider asking a person of heterosexual orientation any of the following questions. The fact that they are asked often of openly homosexual persons masks a hidden homophobia and acceptance of stereotypical thinking. This questionnaire is meant to reach some inner understanding, for heterosexual persons, of what it feels like to be the victim of prejudice and discrimination.

▽ What do you think caused your heterosexuality?

▽ When and how did you first decide you were heterosexual?

▽ Is it possible that your heterosexuality is just a phase you will grow out of?

▽ If you have never slept with a person of the same sex, how do you know that you wouldn't prefer that?

▽ To whom have you disclosed your heterosexuality?

▽ Why do so many heterosexuals try to seduce others into their orientation?

▽ Why must heterosexuals be so blatant, making a public spectacle of their heterosexuality? Can't you just be what you are and keep it quiet?

▽ Why are heterosexuals so promiscuous, always having affairs, etc...?

5-10% of all people are homosexual.
