

[To Host Company from Adam Flanders]

I am demanding that certain copyrighted material of which I am the sole creator and owner, be removed from your servers. I am currently suing your client, Brian Camenker / Mass Resistance, in US District Court (Bangor, Maine) for defamation and intentional infliction of emotional distress. Belfast District Court in Belfast, Maine made a factual finding that publication of the material constituted harassment pursuant to Maine laws. I have attached a copy of that Protection from Harassment Injunction.

The copyrighted material includes the following:

- * A letter I wrote in 2006. I did NOT provide your client with permission to publish this material. This includes an image of my signature.
- * Several filings with the court that I wrote and which your client does NOT have permission to reproduce or publish.
- * A criminal background check on me that your client purchased from the State of Maine, which he does NOT have permission to reproduce or publish. This includes private information such as my driver's license number and home addresses.
- * Photographs of me, including at least one taken from my own website (and this is even indicated on your client's page). I did NOT give your client permission to use this photograph. He also took a copyrighted photo of my mug shot from local newspapers and is using it to defame me and falsely accuse me of crimes for which I am innocent, such as child molestation and pedophilia. This is why a court of law made a factual finding that your client harassed me.

You should also be aware that your client is encouraging the public to "fight back" against me and that I have received threatening emails and other hateful communication as a result of your client's publications, for which I will hold Host responsible if you do not promptly remove this content. Your client attacks a District Court Judge and Chief of Police as well and encourages the public to send hate mail to them, providing people with their contact information and addresses. They continue to attack me and violate my personal privacy rights in addition to my copyrights. I have NOT authorized your client to use my name or other personal / private information in any form whatsoever.

Finally, the well-respected and prestigious Southern Poverty Law Center has officially listed your client, Mass Resistance, as a Hate Group, in the same class as organizations like the KKK:

I have a good faith belief that use of the copyrighted materials described above as allegedly infringing is not authorized by the copyright owner, its agent, or the law.

I swear, under penalty of perjury, that the information in the notification is accurate and that I am the copyright owner or am authorized to act on behalf of the owner of an exclusive right that is allegedly infringed.
