

TAKE ACTION: PROTECT CHILDREN & PARENTAL RIGHTS

Let these school officials know that it's not okay to violate parental rights and go behind our backs to indoctrinate our children with an LGBT agenda during a school wide assembly.

Send this to every parent, church, etc...that you know and ask them to email and call to let them know this has **NO PLACE IN PUBLIC SCHOOLS**. Even if your children don't attend Van Buren contact them anyway. The more schools that get away with this, the more they will force this agenda in other schools.

There is also a flyer attached, to print and hand out at churches, etc....

If you want to know how far this will go if we don't STAND UP now, check out www.massresistance.org and see some of the cases they are fighting right now with DRAG QUEEN STORY TIME at LIBRARIES with CONVICTED PEDOPHILES and people from the LGBT holding protests signs that say things as vulgar as "**Jesus is coming on your dad's back**" and "**Jesus is coming on your mom's face**" simply because parents are opposing this type of stuff.

Where is the love, tolerance and equality that the LGBT promotes? Is this what it looks like for them? This is not about tolerance and equality. It is about indoctrinating our children into perversion and into a homosexual lifestyle. If we do not stand up for our children, who will? **STAND UP and BE A VOICE to PROTECT CHILDREN and YOUR RIGHTS as a PARENT!**

As taxpayers we pay into a public school system to educate our children with the basics of education - math, english, writing, reading, history, science, phys ed, etc. We do not pay our taxes so that school officials can teach our children doctrines that totally contradict our values and belief systems.

Sharing one's sexuality to 11-year-olds, many who aren't even thinking about sex, has absolutely no place in our publically funded schools. Why did they think this was appropriate? And why did they think it was okay to teach our children without our knowledge or consent? And on top of that, use our tax money to teach our children beliefs we disagree with?

Feel free to contact me if you have any questions. Thanks for your help!

Best Wishes,

Julie, Ohio MassResistance
