

FOR IMMEDIATE RELEASE

TEXAS MASS RESISTANCE TO GATHER AND LOBBY IN AUSTIN

Social conservative activists push for Texas to lead in new legislation rather lag behind

Austin, TX: Bold new legislation on cultural issues has been passed throughout the country. Texas MassResistance has produced a packet of sixteen legislative priorities to push back against radical social projects such as LGBT agenda, including gender transitioning of minors, grooming and harassment in schools and workplaces, as well as abortion propaganda in schools, suppression of free speech through “cancel culture”, obscenity and abuse in educational settings, fraud in public research, misuse of sexual assault response programs, and the erasure of motherhood and fatherhood.

Texas gained national attention last year when it petitioned the Supreme Court to intervene in the 2020 Presidential election in *Texas v. Pennsylvania*. Texas’s Attorney General signaled to the world that our state is not just another conservative state, but rather a standard for people who hold traditional and religious values. Yet other states, such as Alabama and Montana, are leading the in fight against gender transitioning in minors and stopping Big Tech censorship and cancel culture. Other nations like France, Poland and Hungary have intervened aggressively in school curriculum so that reckless left-wing extremism does not displace the legitimate academic disciplines.

Texas’s unique legislative system only allows state lawmakers to convene for six months every two years. If they take no action on our legislative priorities in 2021, there is little hope that anything will change in 2023. Meanwhile, future generations are being systematically indoctrinated into a harmful worldview that will only hasten the collapse of our culture into irreversible decay.

The rest of the world is fighting. The Lone Star State is dragging its feet. Why won’t Texas lead? Why are Texas voters told every two years that nothing can be done? As Jesus said, “If they say these things when the wood is green, what will happen when the wood is dry?” If they can’t do anything with Republicans controlling the legislature and the governorship, what will they do when the Democrats are in control? Texas Mass Resistance activists will answer these and other questions as we lobby the state legislature.

Press Conference: Wednesday, March 10, 1 p.m.

Location: State House plaza
